CONCEPT

MICROOFFICE is an ode to minimalism in the shape of an independent workspace. It is the bridge between the two halves of its environment, creating a private and peaceful inner world in the center of the chaos around it. These two realms are linked through vision, energy, light and sensation.

The MICROOFFICE design approach is one of duality, an act of balance between fundamental principles – body and space, transparent and unobtrusive, unyielding yet soft, intimate yet open.

The interior space is ensconced on all sides by a solid shell. The resulting object is opaque from one point of view, a tangible barrier dividing two worlds. From another perspective, it is nearly invisible as it merges with its surroundings. The glass ceilings of the UNIQ and larger QUADRIO models bathe the occupant in soothing natural light.

We've selected the materials used to create MICRO-OFFICE with great care. As a result, the serene design reflects both the simplicity and power contained within our concept.

ACOUSTICS

MICROOFFICE is an answer to the basic question of acoustic comfort. Layers of solid wood and acoustic materials, along with sound-insulating glass, a sonically sealed door and a silent ventilation system, make for maximum soundproofing between the interior and exterior spaces.

The extensive surface area provides optimal distribution of acoustic materials, leading to the creation of a quiet, pleasant interior environment. The entire structure has been calibrated to counter the specific frequencies of the human voice, making it an ideal setting for phone or conference calls.

DESIGN

Based on the above principles, the concept and features mesh in perfect harmony. On two sides, solid facades protect the user from the most persistent sources of noise. The reassuring back wall evokes a feeling of security, while the opaque front eliminates visual distractions.

The other faces are made entirely of sound-insulating glass. The solid walls protruding above the ceiling create the unmistakably iconic “U” shape of the MICROOFFICE UNIQ.

MATERIAL

Our choice of materials reflects our commitment to the dual principles of MICROOFFICE. As such, we’ve upholstered the entire solid shell, while the transparent glass insulates against sound on both sides.

Horizontal divisions across the upholstered surfaces connote scale, while hand-crafted details around the border of each piece add subtle elegance. The entire structure is inspired by the ideal ergonomic height for a table or bar stools.

Design accents and interior accessories are carved from solid oak.

TECHNOLOGY

Central to the MICROOFFICE experience is its cutting-edge ventilation system. Exclusive to our product family, this completely new innovation promises untold levels of comfort. With ultra-efficient ventilation supplying a constant stream of fresh air, users can enjoy the distraction-free solitude of our revolutionary workspaces for hours on end.

Each MICROOFFICE unit comes fully equipped with everything needed to perform at optimal levels. Electrical sockets, USB and LAN connections and an LED light are standard across the entire product line.

MICROOFFICE

MICROOFFICE UNIQ is the clear choice for combining true silence with active teamwork. The unparalleled design enables you to focus on crucial tasks right at the heart of the action. This dynamic workstation blends naturally into the surrounding environment, improving acoustics wherever it's placed.

TECHNICAL DETAILS

exterior dimensions	1175 x 1005 x 2285 mm
interior dimensions	950 x 935 x 2145 mm
weight	350 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak / black varnish
ceiling	sound-insulating glass
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	design lamp
included equipment	desk*, electric socket, USB and LAN connection, motion sensor
optional equipment	seat (chair, barstool), coat hook
color options	decorative fabric (refer to swatches)

* two options of the desk placement (sitting, standing)

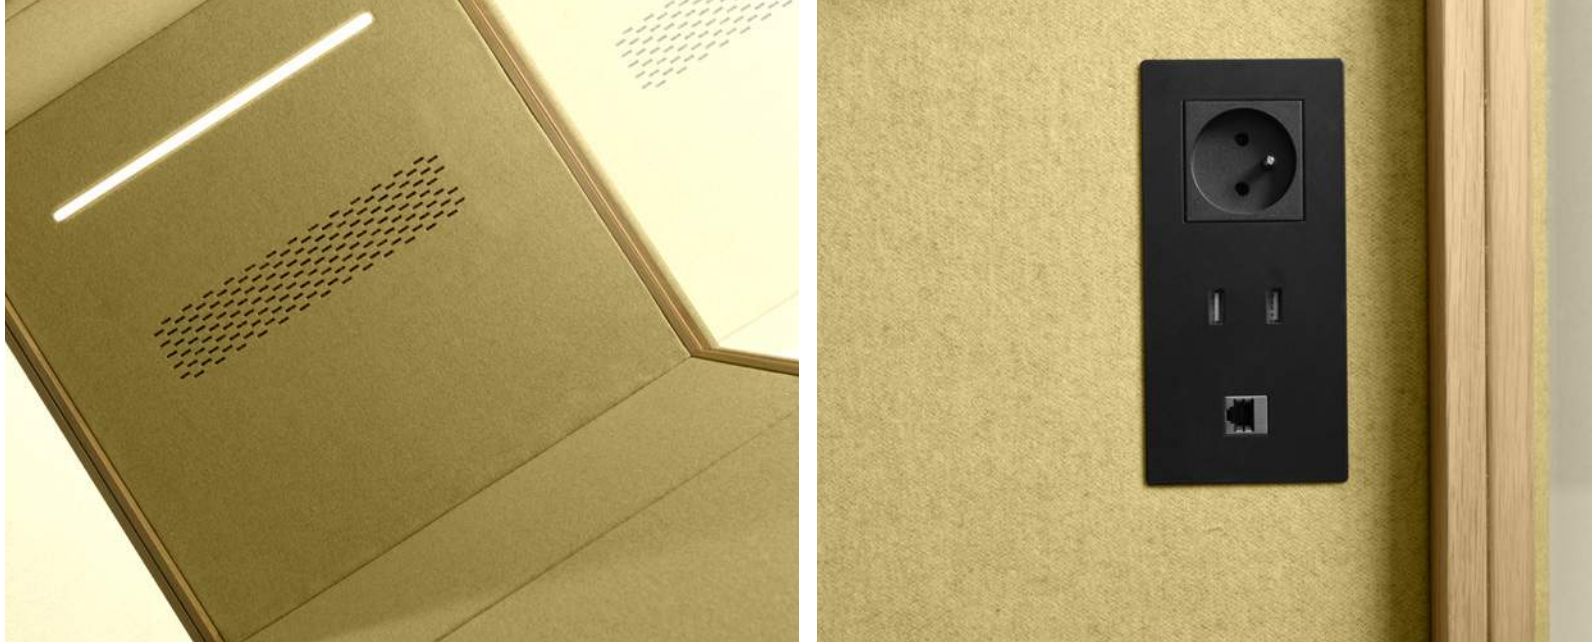

PRIME

MICROOFFICE

MICROOFFICE PRIME is a standalone haven of silence ready for use without any burdensome installation or renovation. It combines our iconic visual aesthetic with a unique ventilation system, high-end acoustic materials, sophisticated details and practical design.

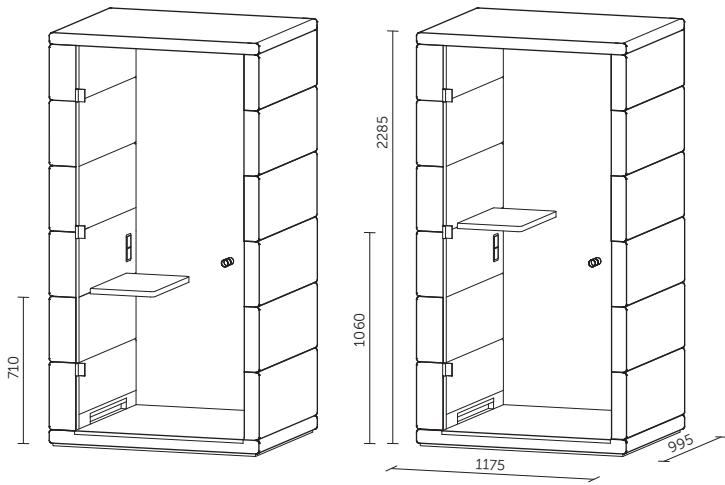

TECHNICAL DETAILS

exterior dimensions	1175 x 995 x 2285 mm
interior dimensions	900 x 915 x 2080 mm
weight	350 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak / black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	LED
included equipment	desk*, electric socket, USB and LAN connection, motion sensor
optional equipment	seat (chair, barstool), coat hook
color options	decorative fabric (refer to swatches)

* two options of the desk placement (sitting, standing)

CUBIQ

MICROOFFICE

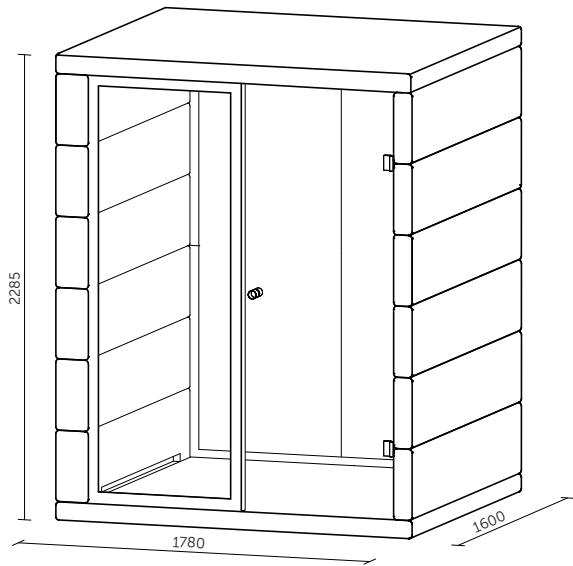

MICROOFFICE CUBIQ turns any area into a private multi-person meeting room. Enjoy unprecedented flexibility with two-person to four-person standing configurations.

reddot design award
winner 2019

TECHNICAL DETAILS

exterior dimensions	1780 x 1600 x 2285 mm

weight	600 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak/black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	LED
included equipment	electric socket, USB and LAN connection, motion sensor
optional equipment	seats, tree trunk (oak), coat hook
color options	decorative fabric (refer to swatches)

QUADRIO

MICROOFFICE

Find unlimited possibilities and forward-thinking design with MICROOFFICE QUADRIO, which you can configure exactly the way you need it. Our original concept, based on a segmented folding system of individual parts, allows you to create a tailor-made office for up to eight people.

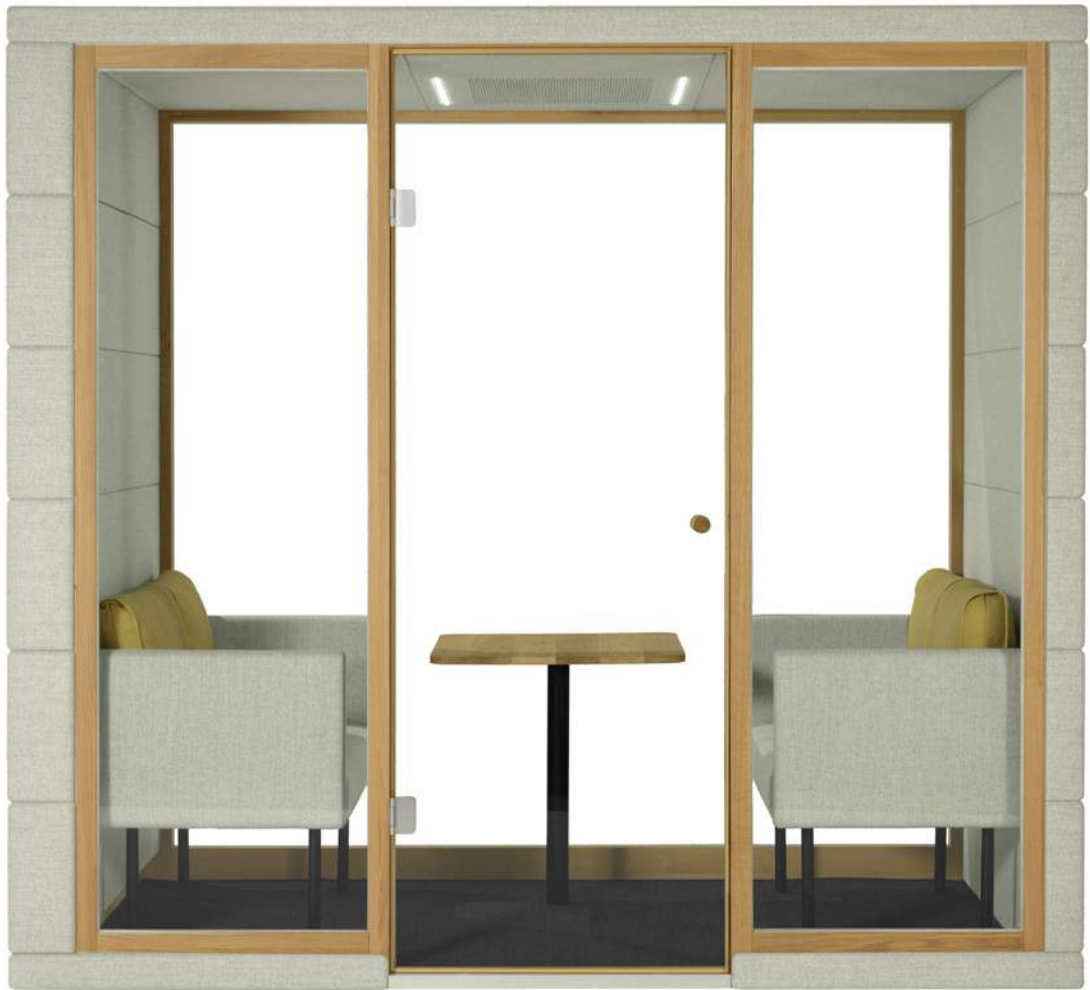

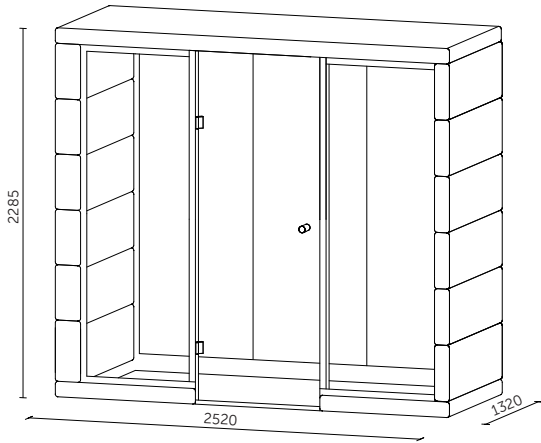

QUADRIO I

TECHNICAL DETAILS

MICROOFFICE QUADRIO I is the ideal meeting space for a quick and private conversation with a colleague. Private, personal and just the right size for two occupants.

exterior dimensions	2520 x 1320 x 2285 mm
interior dimensions	2245 x 1220 x 2045 mm
weight	625 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak/black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	LED
included equipment	electric socket, USB and LAN connection, motion sensor
optional equipment	desk, seats, coat hook
color options	decorative fabric (refer to swatches)

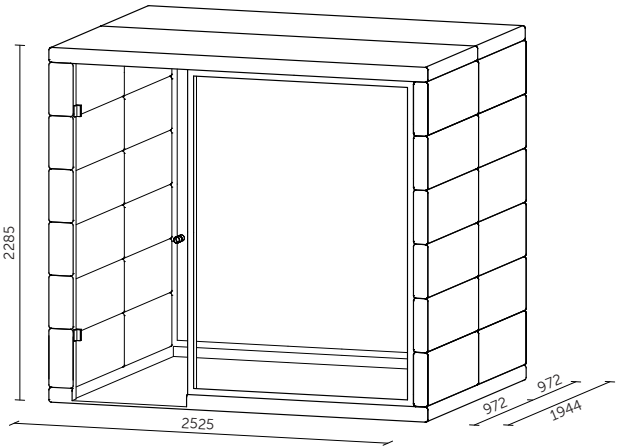

QUADRIO II

TECHNICAL DETAILS

Do you need a place to meet with several colleagues from your team? Try MICROOFFICE QUADRIO II, which offers space for up to four people.

exterior dimensions	2525 x 1944 x 2285 mm
interior dimensions	2245 x 1850 x 2130 mm
weight	750 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak/black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	LED
included equipment	electric socket, USB and LAN connection, motion sensor
optional equipment	desk, seats, coat hook
color options	decorative fabric (refer to swatches)

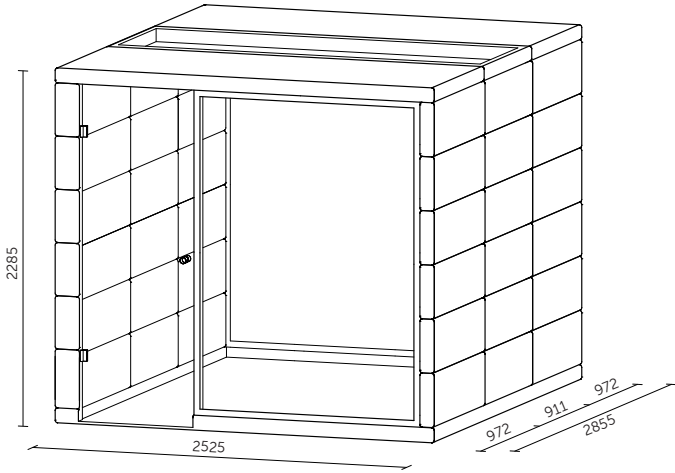

QUADRIO III

TECHNICAL DETAILS

MICROOFFICE QUADRIO III is perfect for groups of up to six people. Its glazed ceiling gives the room plenty of light, providing a comfortable setting for longer meetings.

exterior dimensions	2525 x 2855 x 2285 mm
interior dimensions	2245 x 2760 x 2130 mm
weight	950 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak / black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation and sound-insulating glass
flooring	carpet (anthracite grey)
ventilation	automatic / manual
lighting	LED
included equipment	electric socket, USB and LAN connection, motion sensor
optional equipment	desk, seats, coat hook
color options	decorative fabric (refer to swatches)

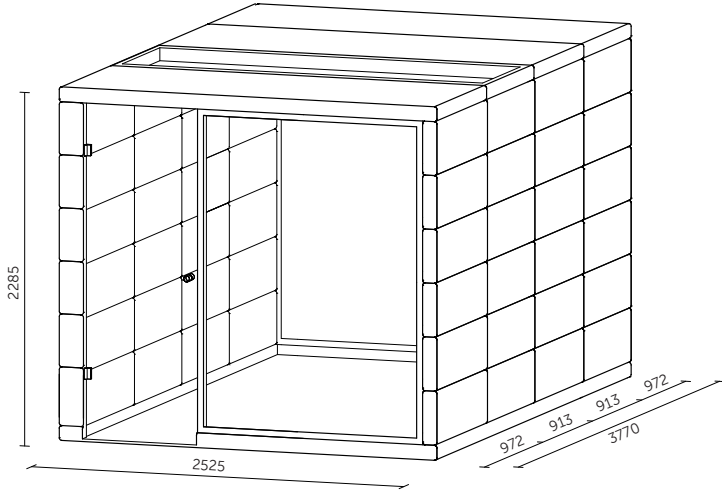

QUADRIO IV

TECHNICAL DETAILS

Able to accommodate up to eight people, our MICROOFFICE QUADRIO IV fully replaces any meeting room without the need for any building modifications. Adding the perfect conference room to your office has never been easier.

exterior dimensions	2525 x 3770 x 2285 mm
interior dimensions	2245 x 3675 x 2130 mm
weight	1150 kg
glass walls	sound-insulating glass
solid walls	sound-absorbing sandwich panel with acoustic insulation
glass wall frame and door handle	solid oak/black varnish
ceiling	sound-absorbing sandwich panel with acoustic insulation and sound-insulating glass
flooring	carpet (anthracite grey)
ventilation	automatic/manual
lighting	LED
included equipment	electric socket, USB and LAN connection, motion sensor
optional equipment	desk, seats, coat hook
color options	decorative fabric (refer to swatches)

OPTIONAL EQUIPMENT

Do you have an eye for design and refuse to settle for less than top quality? Our line of MICROOFFICE compatible accessories has been carefully designed for the discerning client. You can choose from a wide variety of furniture and leading-edge technologies to take your work environment to the next level.

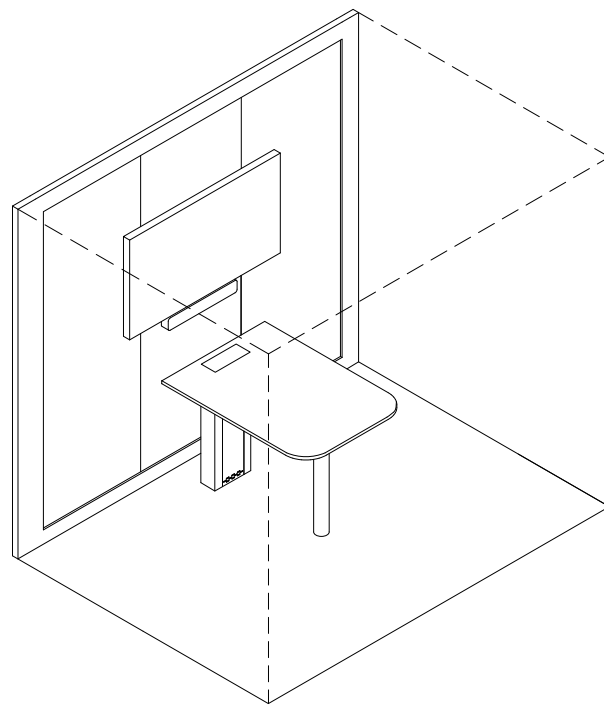

AV TECHNOLOGY

Do you have a client or teammate on the other side of the world? We will equip your MICROOFFICE QUADRIO with state-of-the-art Cisco or Microsoft AV technology. Enjoy real-time collaboration with a videoconferencing experience that's nearly indistinguishable from a personal meeting.

MICROOFFICE has AV technology built in at the manufacturing stage. Absolute soundproofing and high-quality audio and video make the MICROOFFICE the ideal meeting space while retaining its clean design unlike anything else on the market.

The MICROOFFICE with built-in AV technology also includes a custom conference table that we supply. All the wires and cables from the built-in technology pass through the specially adapted hollow leg of the table to minimize visual clutter.

ACOUSTIC CURTAINS

Create more privacy and inhance acoustics with our sheer or opaque curtains made of acoustic fabrics. Choose from wide range of types and colours for the best design which will suit you.

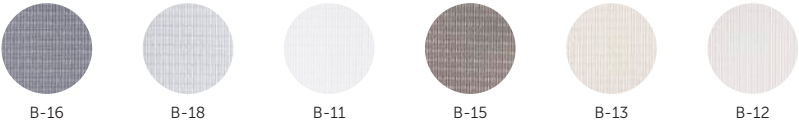

TECHNICAL DETAILS OF PLACEMENT INSIDE MICROOFFICE (QII, QIII, QIV)

dimensions	2100 x 5500 mm
anchoring method	metal rail with carriage
shirring ratio	1:2

The exact composition of the fabrics and information about the sheers and curtains can be found in the material lines.

ACOUSTIC SHEER CURTAINS

BETACOUSTIC

PRIMACOUSTIC

TERZACOUSTIC

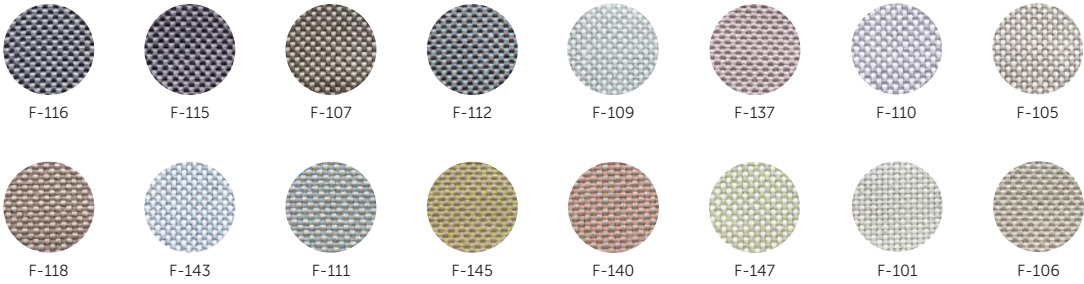

TECHNICAL DETAILS SHEER CURTAINS

materials	100% flame-retardant polyester (Trevira CS)
weight	125 g/m² (betacoustic, primacoustic), 70 g/m² (terzacoustic)
width	150/300 cm

ACOUSTIC OPAQUE CURTAINS

FOCUS

LORD III

TECHNICAL DETAILS OPAQUE CURTAINS

materials	100% flame-retardant polyester (Trevira CS)
weight	324 g/m ² (focus), 349 g/m ² (lord III)
width	300 cm (focus), 150/*300 cm (lord III)

ACOUSTIC OPAQUE CURTAINS

SONOR II

UMBRIA IV

TECHNICAL DETAILS OPAQUE CURTAINS

materials	100% flame-retardant polyester (Trevira CS)
weight	170 g/m ² (sonor II), 281 g/m ² (umbria IV)
width	330 cm (sonor II), 150/*300 cm (umbria IV)

MATERIAL LINES

After you've chosen the right soundproofing tech for your office, bring it to life in one of three distinctive material options. Take your first steps towards a more tranquil workspace with SOFT, focused on maximizing functionality and value. Next, there's AMBIENT, which features two fabric options for increased comfort and performance. Finally, the PULSE line combines wood and metal accents with high-end fabrics to achieve the utmost in quality and design.

SOFT

SOFT is our entry-level category, made from BOMBAY fabric for an emphasis on effortless functionality. The PVC exterior is water-repellent and sleek, sure to complement any professional workspace, while metal frames ensure long-lasting quality.

AMBIENT

Our AMBIENT line comprises two appealing fabric choices: the irresistibly soft ASPECT, made from 75% flame-retardant Trevira CS, or the durable WOOL-LAND, with its natural wool fibers, water-repellent and flame-retardant finish. Either way, you'll enjoy superior comfort and functionality.

PULSE

PULSE blends high-end fabrics with wood and metal components for a striking visual contrast. Our enticing BLAZER, SYNERGY, FAME, BREEZE FUSION and WOOL-LAND QUILT fabrics are exclusively sourced from verified partners who place a high premium on quality. As stimulating to the eye as they are to the touch, PULSE designs feature vibrant quilted arrangements with warm colors that promote creativity and enthusiasm.
