

name: **meky**
 design: mmstudio
 producer: **mminterier**

characteristics:

The Meky collection is designed to evoke soft comfortable seating. The selected set can be combined with a subtle lounger including a headrest cushion. The lounger can be used lying down or sitting with the option of adding a pull-out backrest, which can be fitted to the right or left side of the lounger. Pushing the backrest backwards allows almost the entire lying area to be used. The feeling of comfort is enhanced by the use of a footstool or a headrest that can be attached to the backrest.

Technical specifications:

frame: wood
 springing: rubber-textile straps
 filling: polyurethane + softening layer with technical fabric
 upholstery: removable cover
 fabric – unlimited choice
 leather - no
 leg: steel, black powder coating RAL 9005
 version: non-folding, pull-out backrest (ME03)
